4Dealership is a powerful, cross platform software for wholesale and retail car dealers. It helps dealers save money, increase sales and expand profits by automating, managing, scheduling, tracking and accounting for your entire operation. It helps you organize your dealership operations into many different areas. For example, you can set up different sections (wholesale, retail, service, parts, service, service center, vehicle detailing, transportation). Different areas will have different requirements, which is why you can set up different users for each section of your dealership. You can even track all your customers within the system and list out all your customers by name. You can keep track of your repair history for any vehicle you are

in the business of selling. This is a great way to accurately know what your average repair cost is for each model of vehicle you sell. You can even track the location of any vehicles you have on hold. All the information is sent directly to you via email or fax, making your life easier. If you would like to get paid more quickly and efficiently, then you must use 4Dealership. We do all of the hard work for you, making the experience for you and your customers much simpler. The industry standard is to receive payments from your customers within two business days after the payment is processed. There is no reason why you shouldn't be paid faster than that. Why use 4Dealership? If you have been in the car business for a while, then you know that you are always plagued with two basic problems. Problem #1: You have a lot of different people doing a lot of different things and nobody

really knows what the heck is going on. Problem #2: You are not always being paid when you should be paid. Problem #1 is a great start at 4Dealership. You can see exactly what people are doing on your dealership and where you need to improve on. Problem #2 is the easiest part. 4Dealership has all of the tools you need to track every payment, create reports and invoices. You can even email or fax invoices directly to your customers with no extra steps. If you have multiple locations, then 4Dealership will be the easiest way for you to manage the whole process. Another problem that many dealers have is the problem of trying to pay too many different people for the same thing. 4Dealership solves this problem as well. You can set up different personas in your dealership.

What's New In 4Dealership?

4Dealership is a light-weight and fast-to-use car finance software with all the features auto dealers need to automate their business.
