Quickly look up and download the latest releases of AutoCAD and all the other products we offer. Don't forget that you can always update to the latest versions, just like that! AutoCAD is a 3D CAD software suite developed by Autodesk which is used for design, drafting, and documentation tasks. After graduation from Architectural and Engineering Design School in 2009, Michael Zemack was hired to work as AutoCAD Programmer in Architectural Design Department at the University of Minnesota. After working with AutoCAD for more than 10 years, Michael will now be opening his own custom AutoCAD programming firm. We are currently hiring a highly skilled AutoCAD programmer with excellent attention to detail who is willing to work full-time from home in an exciting new field. This is an exciting opportunity to make a substantial part of the company's continuing growth as an independent business owner and will include both freelance work and a few select permanent projects. We are offering a competitive starting salary and the potential for a substantial bonus for working in a new and fast-growing business. Working with architects and engineers, the Autodesk team creates some of the most advanced software available for architectural drafting. We offer a flexible work schedule with a no more than 40-hour workweek, flexible vacation options, a comprehensive benefits package, comprehensive training, and competitive wages. Our clients range from local neighborhood firms to Fortune 500 companies, so we have an opportunity to work with a variety of projects. This position will also involve the preparation of some of the highest value projects, and as such the ability to be involved in all aspects of the software development and architecture, with the understanding and flexibility to provide multiple solutions in order to fulfill all of a project's needs, is key. We expect the AutoCAD programmer to be eager to learn new techniques and solutions in the software development and to provide real value for the

company. The programmer will be expected to perform all aspects of the project, from analysis through documentation, including cross-selling of products to our clients and prospective clients. We also expect the programmer to be a superb communicator, able to clearly present information in a professional manner. The Autodesk team is currently a remote team, with all development and office locations in the United States. We offer a competitive salary and bonus, which is a combination of base salary and revenue share on each sale. Autodesk, AutoCAD and Autodesk
