Add notes and comments to your drawings using a tool that is faster than a pencil. (video: 1:23 min.) Access over 10,000 global content sources and add content to your drawings. You can now publish your CAD content to 3D websites, apps and even document services like Microsoft Word. (video: 1:24 min.) Create and animate your own dynamic video content that works across all operating systems and devices. (video: 2:02 min.) Add your own descriptive, coded, or other types of information to your drawings. You can now author content to explain how something works or who made it, in any language. (video: 1:24 min.) Align and annotate your designs on any surface and share your creations. (video: 1:14 min.) Mark up drawings on anything: generate and export virtually any markup and include it directly in your drawings. (video: 1:13 min.) Add any of the previously mentioned markup types to the AUTOCAD File Output command and export the markup to anywhere. You can also generate separate layers for each markup type and manage them with the Marking Manager dialog box. (video: 1:19 min.) Paper Space and Paper Space Extensions: Make your CAD drawings visible from the right side of the screen. Place drawing objects in a context that is invisible from the left side of the screen, like a list, so you can see the information on the right-hand side of the screen. (video: 1:21 min.) Add paper space to existing or newly created AutoCAD drawings. Like an Inventor drawing template, a paper space drawing template extends to the right of the drawing and includes shared paper space objects like title block, title footer, toolbars, toolbox, palettes, etc. (video: 1:23 min.) Place paper space templates onto drawings so they display automatically, while retaining their abilities to be opened and edited. (video: 1:12 min.) Get paper space from the new PaperSpace2 drawing template. Similar to paper space, the PaperSpace2 drawing template extends to the right of the drawing and includes shared paper space objects like title block, title footer, toolbars, toolbox, palettes, etc. (video: 1:08 min.) Reduce your drawing space. Start drawing in a small box with

System Requirements For AutoCAD:

Minimum: OS: Windows 7, Windows 8 Processor: Intel Core i3 Memory: 4 GB RAM Graphics: Intel HD 4000 (Desktop GPU) DirectX: Version 11 Hard Drive: 2 GB available space Sound Card: DirectX compatible sound card with 7.1-channels, if applicable Additional Notes: The app will be tested with all of the latest drivers and games. We do not have a Mac build of the app, but it is certainly doable with a little bit
