One year ago, shortly after committing to Cal, Booker Southerland, his teammates and the coaches were looking forward to a bright future as the Bears prepared for a historic season. In the past, Cal was known for producing players who would often follow in the footsteps of Sam Gilbert, Marcus Allen, Rod Jones and George Plimpton. In 2010, that tradition would be broken and Southerland and Cal would produce players who would make their mark on their own. Although no one was expecting much at the time, Cal's 2010 season actually began with a bang. At the beginning of the year, when few people had any idea what to expect from a Cal team that was coming off a disappointing season, the Bears started the year with a pair of surprising wins against ranked opponents: USC (No. 15 at the time) and Stanford (No. 19). And that momentum continued in 2010. The Bears opened the season at Oregon State and then traveled to San Diego to play one of the best teams in the country. Then, Cal fans were treated to another trip to the USC Coliseum to play one of the sport's best. After a week off, the Bears faced Notre Dame, ranked No. 7 in the country. In the season opener, Cal and Notre Dame combined to produce seven turnovers. Cal went on to win that game. The next week, Cal traveled to Stanford and had its way with a mediocre Cardinal team, improving to 5-0. Then, Cal went to the Rose Bowl. Five games in, the Bears were 7-0 and ranked in the top five. The Bears got off to a slow start at the Rose Bowl. However, they quickly turned things around and took the lead in the second quarter. Cal fans could be heard chanting "Let's go Bears!" when Scott Monson went to the sidelines to take a knee to end the half. At

halftime, Cal led 17-14.
