An egg timer keeps track of how much time you've spent and makes sure to remind you of important things in your life. By reminding you at the appropriate times, you'll get things done when they're supposed to be done and take care of yourself. Egg Timer

is a free to use app that can count down, alarm the day of the week and can be used as a daily/weekly countdown timer. It allows for a daily countdown timer, using 2 alarms, which can be set as repeating daily or weekly and each alarm can be linked to a specific number of days remaining,

so if you want to count down to the week end or a work deadline for example, this is the perfect app for you. Additionally there is a weekly timer, which you can set to day number and/or day of the week. Egg Timer is also capable of displaying an alarm time or countdown timer that can be set for

each day or week, and can be linked to a different timer (daily/weekly). The alarm can be set as daily or weekly for the countdown clock that appears in the status bar. There is also an option to create a custom timer that can be created to keep track of anything you need to do from each day or week.

This is great when you have things you have to do weekly/monthly that you want to list and remember to do. The app comes with several customization options; you can add a picture, title and description for each alarm and you can also set a colors for the timer and the title. Plus if you have

a favorite song you can link your favorite alarm music or a song to that alarm. There are two screens to choose from, but which you choose is up to you. The timers can be displayed in chronological order (alarm + countdown) or by day (at 9am). Here is a list of the options Egg Timer provides, complete

with a brief description: Note: There is also an optional night mode where the day and night images are used to fill the status bar. Set up easily and with great flexibility through the settings page. Egg Timer is a great way to remember important things in your life by setting up timers for things

_____ Info: Windows: 1.1.4 is the latest version of EggTimer. 1.1.4 is available from CNET Download.com, and other Windows Application Store locations. EggTimer is an egg counter. EggCounter is a package of software add-ins to Microsoft® Excel®. EggTimer has a

graphical, hand-held control. It is designed to count eggs, and is extremely accurate. Write your own count, then you don't have to look, count or remember. EggTimer records 1 egg in a container and keeps the count for you to review at any time. EggTimer is designed to complement Excel. It

has nothing to do with Calendar, or Windows time or daylight savings. EggTimer includes a graphical control and a reporting function: Graphical control: The graph displays the eggs, and helps you keep track of the eggs. A time line. A message box. A touch-sensitive bar to enable you to read the value of the

counter. Graphical control: The egg-counter is shown in a graph. The egg counter can be placed under the column header. If the column header is set to date-time, then the counter can be moved to the current time. Reporting function: EggTimer reports the number of eggs it counted. It can be downloaded
