Experience the unique game play of Splendor: The Strongholds expansion! The three strongholds available to build in this expansion will allow you to influence the game. There are also three new cities to discover or recreate! The map has been redesigned to better reflect the depth of the gameplay. To maintain your current map, there are references to the old map that will make it easy for you to get back to playing the game. With the help of an inventive turn structure and a simple, intuitive interface, Splendor has succeeded in creating a game that is able to be played even by younger players! The simplicity of the rules and easy navigation will also allow you to use the game on your mobile phone to play Splendor wherever you are. Key Features: - A very easy to understand turn structure. This facilitates large number of turns per round. It is possible to spend the maximum number of turns per round. - An innovative turn structure in order to find a balance between time limitation and strategic importance of the cards. - An intuitive interface that allows you to easily distinguish the actions you can perform in a turn. - An adjustable timer. Timers can be set to each player's own preferences. - Move cards can be placed on any number of streets. This facilitates a natural and fluent game play. - The option to decide on the order of the development cards or to assign them randomly. This also makes the game play considerably more interesting for players. - Separate playfield for the Strongholds expansion. - New towns, and new appearance for the current cities - New maps in the Stronghold expansion - Extended condition for the Victory cards - Each player starts the game with three Stronghold tokens - Easy to distinguish active and inactive roads - The map is illustrated to best represent the current game play - New Sticker Set - New Soundtrack - New English manual - 30 new cards - 9 new town tiles - 9 new road cards Own The City: The Strongholds Description In Own The City: The Strongholds, you build fortresses or destroy those of your opponents to gain a decisive strategic advantage. Depending on what strategy you choose, the Stronghold tokens will allow you to reserve up to three Development Cards or to acquire a Development Card free of charge, due to the three strongholds built on top. You can also choose to destroy other players' strongholds to hold up their progress! There are a number of possibilities for you to choose from

Apparent lack of effect of citrate on the removal of lead from canned tomato juice. In both a batch and continuous column studies, we found that citrate, a compound that has been demonstrated to remove lead from blood, did not significantly affect the lead level of canned tomato juice. S. B. Weik at the National Institute of Standards and Technology, in collaboration with the Food and Drug Administration and several University of California laboratories, is testing tomatoes at the levels found in canned tomato juice for effects on lead content.

Q: How to Select specific part of a.txt file I am trying to select data from a.txt file with only specific characters in it, can I format it in any way? Right now I have this. File 2 = `open('D:\W\file.txt', 'r')` for line in 2: if ('N2' in line): print ('match found') else: print ('No match found') but it will match the entire string. A: `import re with open('D:\W\file.txt', 'r') as f: text = f.read() match = re.search('N2', text) if match: print('match found') else: print('No match found')`

A software-defined network (SDN) is a network architecture based on a software-centric approach, in which network control is decoupled from network hardware, i.e., the control plane is separated from the data plane. By changing the current hierarchical approach of the SDN into a two-

Play the game "minforiga" to follow along with the development of Cyan's world of Barsoom, as seen through Rand and Robyn's eyes. Game "Doogar" Gameplay: Play the game "doogar" to see the path of Cyan's worlds in the early stages - before 3D graphics. Game "Crag" Gameplay: You can go on a virtual tour of Crag, a now-defunct, colorful world that was one of the first Cyan worlds to make use of 3D graphics. Before you go, check out this development video from Brian and Tyler Carro, of Cyan's talented animation team: "Crag - The Journey Begins"

Fiber-optic pressure sensor based on a Fabry-Perot interferometer. An absolute pressure sensor with up to 0.36 mV/MPa sensitivity is demonstrated based on a Fabry-Perot interferometer. The sensor is fabricated in thin-film planar technology. It utilizes a single mode multimode fiber and can be connected to a port with 20-300 microm radius. Its application in a hydraulic system is shown with real-time monitoring of the pressure change on the hydraulic system.

Effects of using a speech to text technology on the pulmonary inflammation of hospitalised patients with stable chronic obstructive pulmonary disease. Patients with stable chronic obstructive pulmonary disease (COPD) may have difficulty in reading instruction and reading medical materials and may not effectively receive sufficient education. The aim of this study was to evaluate the effect of using a speech-to-text (STT) technology on the pulmonary inflammation in patients with stable COPD. A total of 120 patients with stable COPD were randomly assigned to a control group and an intervention group. The control group was provided with general health education and the intervention group was provided with the same education plus the STT. The pulmonary function, arterial blood gases and serum inflammatory markers were measured in both groups before and after the intervention. After the 6-month intervention, the intervention group had better daily living ability (P

GRAVEYARD At the mercy of time, you return to this deserted spot, believing your account to have remained empty of everything but empty. The usual decaying of life only puts you further apart from what you once were. You return to the land as she lies, a marker for her age and the reasons for her future.

ALLEY You pass by the entry to this decrepit alleyway which leads out of nowhere, an older topography reminiscent of where you last left the city. Long forgotten, much of this place has crumbled away, some of the pieces of its existence even destroyed, but it holds no fear for you. You may be an outcast, the walking dead, but you choose to remain here for when the pieces of your world fall one by one. You are AS SEEN ON A RETRO TV As this console appears to you, it appears to be boasting a 1080p screen and the ability to display 720p content. You are only able to interact with this through your handheld controller, which for a systems-grade machine seems to be too small of a screen.

COLGATE You find yourself in a strange room buried beneath one of the industrial towers of the city. This place seems more normal than the mask that you are wearing would indicate, and you are not quite sure why you have been brought here; your questions remain unanswered. Aside from an eerie glow in the dark from a ceiling above you, there is nothing to distinguish this place from where you came

Elite School Roof Club is a visual novel, with RPG elements, that's super-hard. You are in control of the life of Kenn, who as you play, must try to raise enough money for a building project at his school. It might be the only thing that can keep the school running, and the students in it alive. However, every school building project has its own set of problems, and there are no guarantees of success. All in all, you need to raise the school roof - and all of its money - while in the process of killing a ton of demons and scanning for inter-dimensional anomalies. You use an arrow pad in order to interact with the world, and there are additional items to equip and abilities to learn along the way. Hey! As of this moment, this game features an entire quest line, and even a full ending! Its is super hard, you might want to save often, since once you start playing through this game, you might find yourself invested in its hours. And yeah, it'll probably take you, like, two weeks or something to finish it. So... no pressure. Features: - Over 100 hours of gameplay! - 20 different endings! - Alt History to unlock and see - A ton of unique and crazy characters! - Lots of choices - Dozens of goals to accomplish - Explore the world with an adorably in-your-face map view! - Play multiple endings in the same game! - Lots of debug features! - It's a visual novel with RPG elements! - Funny and/or humorous choices to make! - Find cool characters to meet along the way! - Lots of stickers! - New events and characters to come! - All of the jokes are 100% intentional! - Part of the 'Ratings' system! - A heart of gold inside every demon's heart! - Lots of weirdos to meet! - An incredibly difficult game to play! - Support characters to unlock! - The 'good' school bus is invincible, and has an obnoxious sound effect! - But the 'evil' school bus is actually real! - Now that you've made it this far, there's no turning back! Don't go too far!! - A prompt where you may press a button to talk to a random character! - Lots of crazy side-quests to do! -
