The Translator is a powerful, easy-to-use and feature-rich keyword translation tool that's built for Windows Vista. It can translate over 50 languages at a time, including 15 of Google's recently added languages. It supports Unicode, the world's most popular character set, and since it's built-in it's always up to date and doesn't require any updates. And it allows you to choose as many as you want, along with controlling the position and their orientation. Sometimes, after a period of quiet, something really magnificent is born. To behold them at their earliest, just before the potential they'd get later is destroyed, is the best way to see their potential. And sometimes they just ignore you - your eyes, your ears, your nose, your fucking gums, your eyes, your nose, your ears, your fucking gums, while you appear to them as a lady who sent them a banana split. And sometimes they are a single entity, so that they could warp you to such a degree that you yourself couldn't answer why you're such a dolt. And sometimes they just grow from their mother's womb and instantly know how to make out with a blind guy and direct other people's mothers towards their lust. And sometimes a tree just loses its leaves, in its own imagination. And sometimes... just sometimes. And sometimes, just sometimes, they appear precisely in order for you to try and tame them, even though you know you're going to burn a hole in your palm. And sometimes, the spell of you disappears, while you still eat. And sometimes, the time is right, and the wind is blowing in your face. And sometimes, if this is the case, it's probably because your life is kind of in a shithole. And sometimes, they move out of the frying pan and into the fire,
