What's new:

: final fate: Yuldigar dies after being borne to Gorukha, where he's exalted as a demi-god. He's made better than many, but he is made by other beings, and therefore is better than some humans can bear. He can't commune from pain, and he suffers badly, so he is exiled into the shadows. There, he spirits on Yurnega's son, Vedisel, whom he manages to gather. Vedisel's first song marks the beginning of the long Balnar transition.

Yuldigard's Exaltation: final fate: Yuldigar is a demi-god of the highest kind, and he dominates the living world. Yurnega brings him into her home to heal, but he is too powerful for her to fully control and heal the pain he brings. She takes her son away, but she's loyal to her husband. She will try to hang herself while he sleeps; she knows the pain he brings will be unbearable.

Yuldigard's Liar: final fate: Yuldigar departs to gather men to fight the Wendigai, and without anyone to suppress him, he starts to have nightmares. He can't affect what others see, but he can affect what they think. He is able to compel others by attacking their identity. Many others behave as if he were Yurnega. Her son, Vedisel, is the only one he can't control. Vedisel does invoke restraint against Yuldigar for a time, but he can get others to disobey him. This becomes increasingly the case, and Yuldigar becomes far more menacing. The god is not virtuous: I could wrap this all up in a lot of glowing language, but I want to talk about integrity. One of the ways the god is most easily depicted as arrogant, selfish, and profligate in his desires is when he kills on whim. To kill, E-11 is fairly obviously wrong, and if he does it, he makes a mistake. Often, he kills because of what the people wish to do. If they wanted it, they could bear his pain, but they don't. Yurnega tries to soothe him with her bland, occasional incantations. Knowing that the god is tortured, she tries to keep the others from acting with utter malice. She's told to create well. Its easy to say she gives the god all she can, but E-

The theme of the jam was to make a violent genre non-violent. I love roguelikes and I thought it would be interesting to think about why these monsters are living in a dungeon. Perhaps they have more of a right to be there than the "hero". The other molasses game jam games are also on steam: Thank you very much and have a great day! - Yuko Demo Recent changes:1.08 - Updated the readme In My Cousin the Rogue, your Cousin is the "hero".
