It is a fully-flowing RPG that immerses players in a vivid fantasy world. From the creators of "Pokemon GO," THE NEW FANTASY ACTION RPG brings the joy of exploration and real world exploration to the mobile space. In addition to battling and exploration, the game also offers a myriad of daily missions to fulfill.

Features:

When the enemy is close to you, you can use attacks that can break through shield, magic, or throw projectiles. It is your choice to have your weapons drawn or remain on the offensive. In addition to attacking with groups of ranged characters, enemies with high defense skills can block your attacks by crowding themselves together. Defending against multiple enemies simultaneously will require you to make the strategic decision of choosing to use each character's own skills or use melee and magic simultaneously.

This is an awesome game. One of the first 3rd person games, and of all time i think, the battle system is superb. The way you fight is so cool, just a different style than other battle systems. The story is great, every character has their own background and has a very good reason to join you on your journey. The music is very well crafted and is very epic. I would recommend this to anyone who liked a fantastic game that was a long time ago.
