Basically, I have 5 checkboxes, and the user can check/uncheck as many or as few of them as they wish. What I would like to do is reset all of the boxes back to Unchecked after they're done. I tried putting the "return View();" at the end of the function, but it didn't work. Any help would be greatly appreciated! If you need any more details about what I'm doing let me know. Thanks!

A: If you want all the checkboxes to reset back to un-checked, put them in a List and clear the list using list.clear() Maasai Mara The Maasai Mara is the largest wildlife conservation area in Africa, and the largest ecosystem on the African continent. The area is about 6,000 square kilometers in size (1.4 million acres) and is in the center of the Maasai Mara National Reserve, located in the north of Kenya. The Mara is located west of the Great Rift Valley, at the western edge of the Great Plains. Its tallest peak, Olio Hill, rises more than 1,300 meters (4,265 feet) above the surrounding plains. The Mara, however, receives most of its runoff from the northern part of the Rift Valley, while much of the rest of the plain receives runoff from the mountains to the east. The Maasai Mara has two major rivers - the Nyati and the Kogas - along with several smaller rivers. The Maasai Mara ecosystem was established in 1906. The area has a wide diversity of animals, including 350 species of birds (mostly ground-dwelling), 1,500 species of wild animals (including black rhinos, lions, leopards, elands, gazelles, giraffes, cheetahs, and zebras) and 22 species of mammals (including the rare black-backed jack
